

Reception Summer One

Butterflies

The Very Hungry Caterpillar

Observing Caterpillars

In our class we have been learning about caterpillars and butterflies. We have been observing the transformation in our butterfly garden.

TOPIC

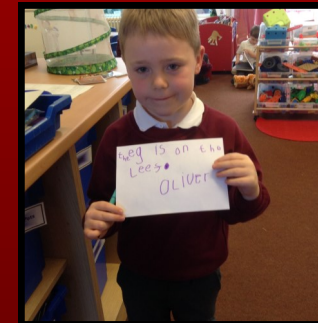

MATHEMATICS

In Mathematics we have been developing our shape, space and measure skills. We are very good at naming and describing 2d shapes. We have enjoyed measuring different things within our classroom.

Our daily number sentence activity during rolling registration helps us regularly apply our calculation skills!

LITERACY

During Letters and Sounds we have been practising reading and writing words that contain diagraphs and triagraphs.

We have also been using our phase three phonic knowledge in our sentence writing.
