## Equality Statement

---

In keeping with our Catholic faith, we believe that:

- Everyone should be treated with respect
- We are all unique
- Differences should be celebrated
- Prejudice as a result of a difference should not be tolerated

Equality is for all and is the responsibility of all! The 2010 Equalities Act is there to achieve equality for all, especially where characteristics have been protected because of historical inequalities:

- age
- disability
- gender reassignment
- marriage or civil partnership
- maternity
- race
- religion or belief
- sex
- orientation

In keeping with these legal duties, it is our intention for everyone to feel valued whatever the difference.
