

**Pathways to Spell**

The following information is taken from the Pathways to Spell programme.

For Years 2-6, we follow a mastery approach to the teaching of spelling through the programme 'Pathways to Spell'. It is a programme designed to deliver the statutory content of the Primary National Curriculum for spelling in key stages 1 and 2. Through weekly teaching of spelling objectives and development of a whole school approach to word transcription, vocabulary development and proof-reading, the programme aims to develop children as proficient spellers.

You will find the end of year expectations for spelling for each of our year groups in the attached documents. For further detail on the skills that your children are learning on a weekly basis, please contact your class teacher.
